FOUNDATION FOR SUPPORT OF REFORMS IN UKRAINE

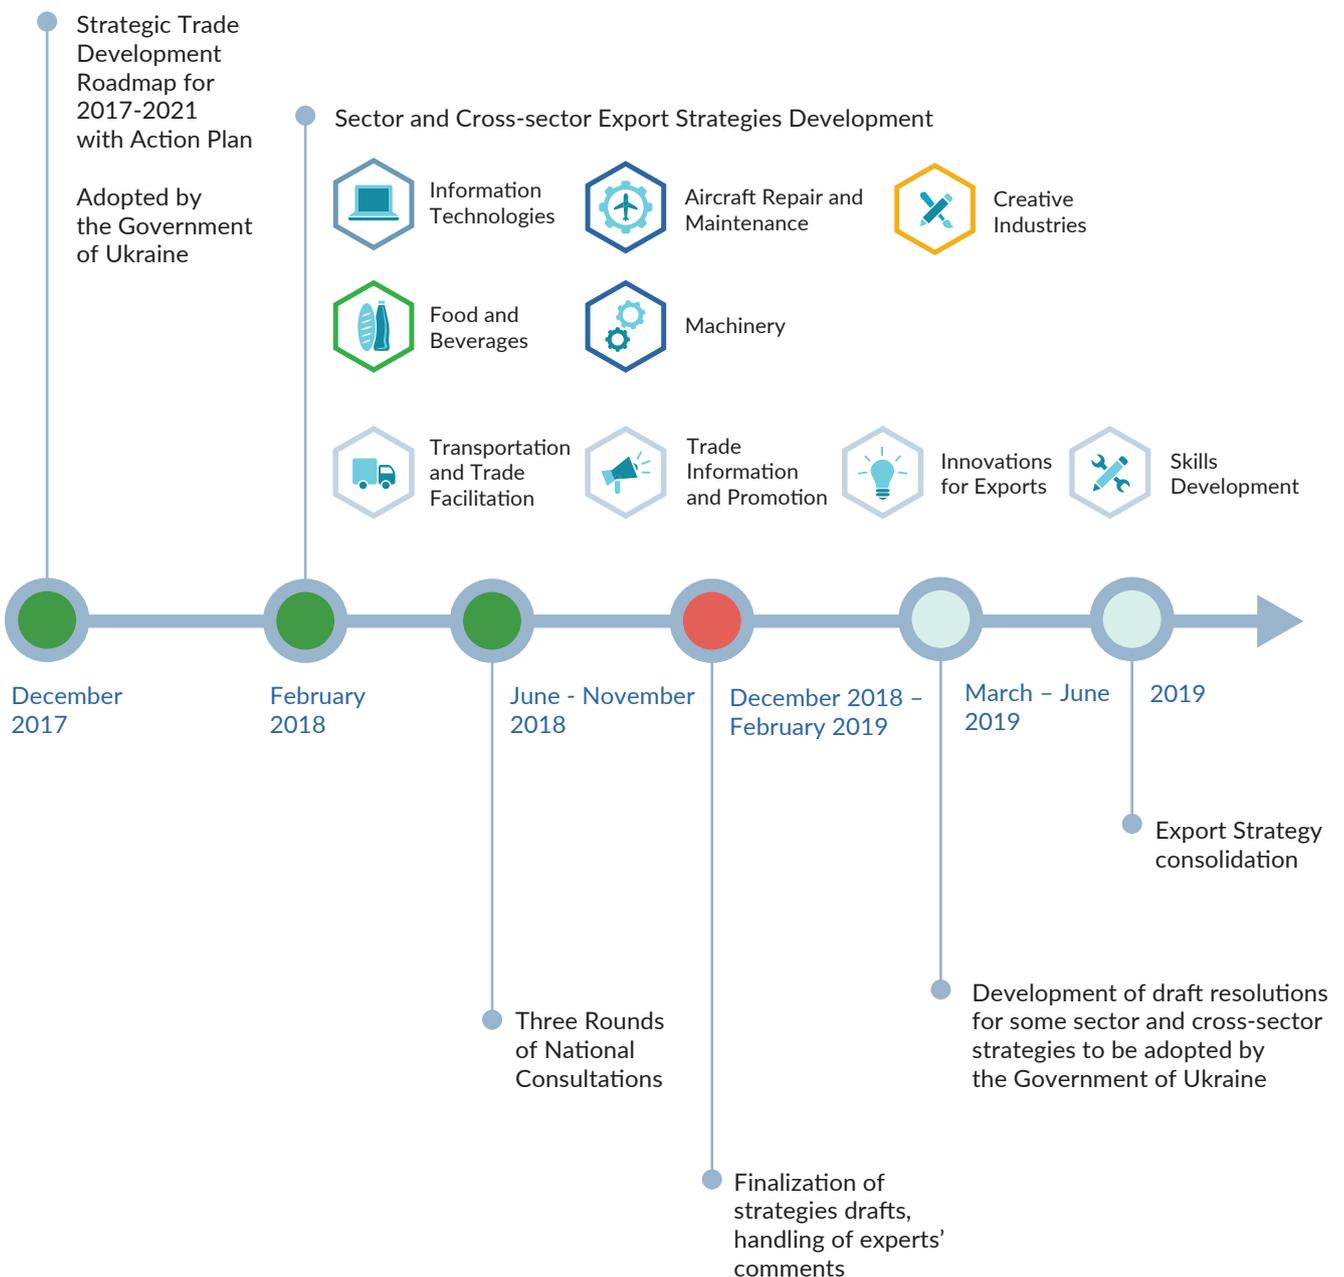

# Export Strategy of Ukraine

Development, adoption and implementation of sector and cross-sector export strategies is the second stage of the Export Strategy of Ukraine. It is also a part of Strategic Trade Development Roadmap for 2017-2021 and Action Plan realization, approved by the Government of Ukraine on December 27<sup>th</sup>, 2017.

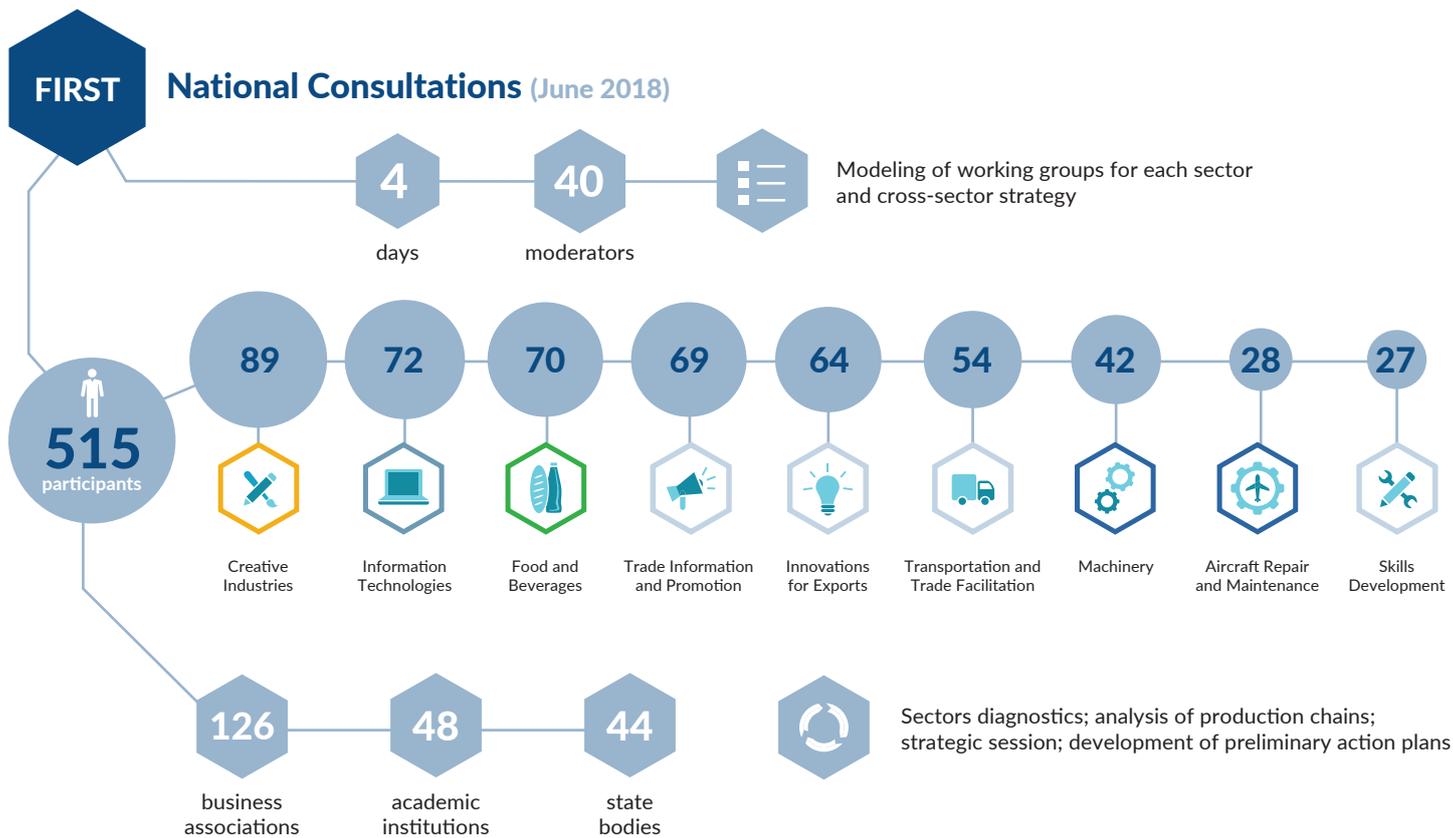

According to the International Trade Centre methodology, all stakeholders, in particular, representatives of trade support institutions - business associations, chambers of commerce and industry, local and international experts, delegates of state bodies, research institutions and NGOs participated in elaboration of sector and cross-sector export strategies.

These strategies are initiated by the Ministry of Economic Development and Trade of Ukraine in the framework of GIZ Project "Promotion of a Supportive Framework for Trade in Ukraine", that is implemented on behalf of the German Government, in close collaboration with the International Trade Centre and Non-governmental union "Foundation for support of reforms in Ukraine".
