

PROTECTION FROM UNFAIR COMPETITION OR GROWING IMPORTS

first steps producers should take

ISSUE: deterioration in economic climate within a company as a result of unfair competition triggered by importing of goods/constantly growing imports

SOLUTION: initiation of antidumping, subsidy and special investigations

RESULT: opportunity to take restrictive (antidumping, compensatory or special) measures against the imports.

Types of investigations:

- Antidumping: unfair competition dumped imports (imports from one or several countries)
- Subsidy: unfair competition subsidized imports (imports from one or several countries)
- Special: increase in general importation of certain goods (despite the country of origin)

Possible preconditions for launching an investigation:

- Loss of Ukrainian market share by a company
- Unfair competition or growing imports
- Deterioration in economic climate within a company following growing or unfair imports

In case of preconditions for an investigation, a producing company shall take the following steps:

STEP 1

- 1. Determine the product (description, UKTZED code);
- II. Get sure that a company (producer) occupies the major share of the total production of such products in Ukraine or is supported by other production enterprises;
- Ill. Pick a type of an investigation depending on trade violations;
- IV. Analyze figures and factors that indicate deterioration in the economic climate (within a producer or a group of producers);
- V. Get sure that the economic climate within a producer is exactly a result of unfair competition or growing imports;
- VI. Address the Trade Protection Department for advisory assistance.

STEP 2

Draft an application or a claim to initiate opening of an investigation as follows:

- 1. Information about applicants and facts proving a company (producer) occupies the major share of the total production in Ukraine;
- 2. Information about goods subject to the investigation and information about goods produced by an applicant;
- 3. Information about foreign producers subject to investigation (in case of antidumping or subsidy investigation);
- 4. Information about imports (dumped, subsidized or growing);
- 5. Information about damage caused to an applicant as result of unfair competition or growing imports;
- 6. Facts that prove that national interests require imposition of restrictive measures (protective, antidumping or compensatory) against the imports;
- 7. Information and evidence of dumped or subsidized imports (in case respective investigation is open).

ATTENTION! All the aforementioned information must be supported with respective evidence.

STEP 3

Official address regarding opening of an investigation

Address the Economic Development and Trade Ministry of Ukraine to request opening of respective investigation.

FAQ

(1) Legal framework:

<u>WTO agreements</u>: General Agreement on Tariffs and Trade of 1994, Protective Measures Agreement, Agreement on Implementation of Article VI of the General Agreement on Tariffs and Trade of 1994, Agreement on Subsidies and Countervailing Measures.

- (3) How long does an investigation last:

Antidumping/subsidy investigation – as a rule takes 12 months, special investigations - nine months.

(4) Preliminary measures:

Preliminary measures shall be taken through imposition of respective duties (antidumping, compensatory or protective) 45-60 days from the date of opening of respective investigation and for the period of 4-6 months should all requirements of the Ukrainian legislation on trade protection be observed.

(5) Outcome of the investigations:

If the fact of unfair or growing imports, damage and cause-and-effect relationship between them, is established, if the fact that national interests require protection is ascertained, protective measures can be taken (in a form of duties or quantitative restrictions) or antidumping/compensatory measures (duties as a rule) can be taken against importation of goods to Ukraine.

(6) Period the measures are imposed for:

As a rule, antidumping or compensatory measures are imposed for the period of 5 years and special measures - 4 years. Trade protection measures can also be revised and extended.
